

Specialization within Pedagogy field of study:

Childcare Education with Pedagogical Therapy

(2nd degree studies)

Studies of the 2nd degree at *Childcare Education with Pedagogical Therapy* specialization are addressed to everyone, who is interested in gaining job competences within professional educational-caring work with people, who are unable to live independently and take on full responsibility for themselves and others (children, teenagers), and also when people lose such competences at the end of the life, or as a result of a disease, disability and again need care (in the period of early, middle and late adulthood).

Graduates of such studies are prepared for working in the profession of a educator, tutor within governmental (institutions and organizations of social welfare, educational-caring institutions) and non-governmental institutions (non-governmental institutions, foundations, social and religious communities, which work with children, teenagers and adults).

Graduate of Pedagogy, Childcare Education with Pedagogical Therapy specialization has competences for working:

1. as a day-keeper, babysitter;
2. at institutions, which organize care and upbringing of toddlers – nurseries, toddler clubs, children clubs;
3. at institutions, which support families in local communities: social welfare houses, children and family help centres, family diagnostic and consultation centers;
4. at pre-adoption interventional centres and educational-caring institutions of different kind: socialization (orphanage), family (family orphanage, family emergency shelter), intervention (emergency shelter, crisis intervention centre, violence victim centre, hostels for mothers with children, addicts, mentally impaired people, homeless people etc.), special therapy – taking care of children with special needs (curative-therapeutic institution – sanitarium, hospital, children holiday house);
5. at institutions of day support, which operate in a form of :
 - caring – interest communities, day rooms (school, environmental), clubs, children's care centres;
 - backyard work, which implements animation and social-therapeutic activities'
6. at family institutions of childcare.
